

COMPLETE
CONCUSSIONS

Complete Concussions.

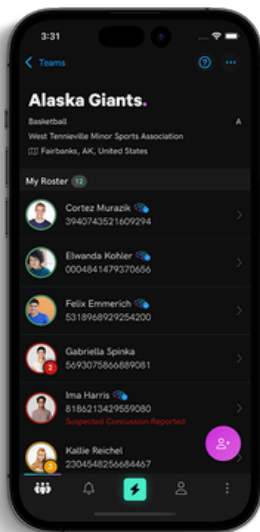

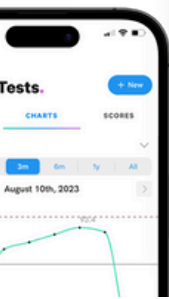

Your all-in-one concussion management tool.

We have taken all the best, research-validated tools, and combined them into one simple-to-use solution for Baseline Testing, Sideline Screening, and Post-Injury Concussion Management.

Mobile Concussion Diagnostics

A full suite of validated concussion tools,
in your pocket

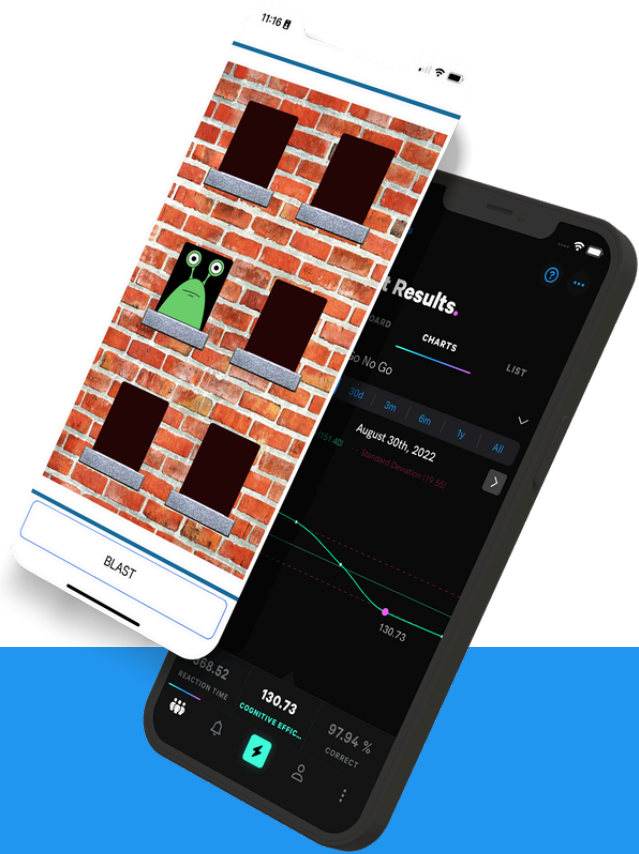

The Complete Concussions Testing and Management Software connects with a sideline app, enabling staff to quickly screen, document, and report suspected concussions to all stakeholders. It also lets injured students/athletes/patients update their progress and communicate with the medical team throughout recovery.

- ✓ **The most comprehensive concussion platform available anywhere:**
 - Neuro-cognitive (DANA), includes mental well-being screen
 - Postural Sway
 - SCAT6
 - Reaction Time
 - King-Devick
 - VOMS
 - Buffalo Treadmill Test
 - Chicago Blackhawks Test and more
- ✓ **Make it easy on yourself - no more computer labs!**
 - All baseline and post-injury testing can be done remotely on any smartphone device!
- ✓ **No binders needed!**
 - Suspected concussions can be assessed, reported, and documented by team medical and support staff
 - Results are automatically compared to the individual's baseline results (if available)
- ✓ **Get everyone on the same page**
 - Automatically notifies all appropriate stakeholders of the injury and their responsibilities
 - Seamless communication between students, athletes, patients, medical staff, and other stakeholders throughout the recovery process
 - Remote testing and monitoring

Technical Features:

- ✓ HIPAA and GDPR-Compliant
- ✓ FDA Cleared
- ✓ Secured De-identified Data
- ✓ Research Compatible
- ✓ Research-Validated

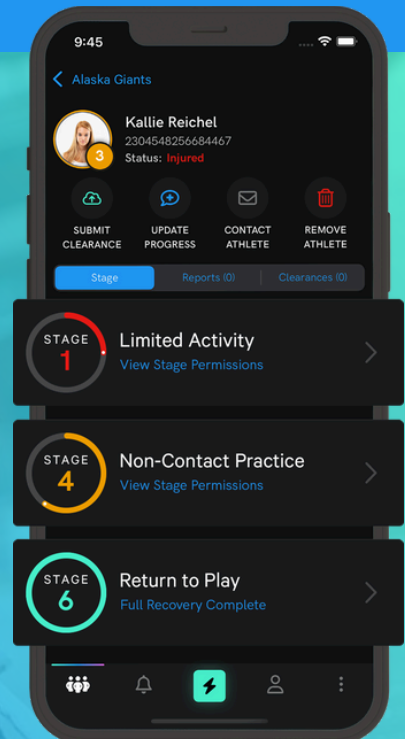

ICON COLOUR INDICATES INJURY STATUS

- GREEN** Cleared to Play
- YELLOW** Cleared to Practice
- RED** Suspected/Confirmed Concussion

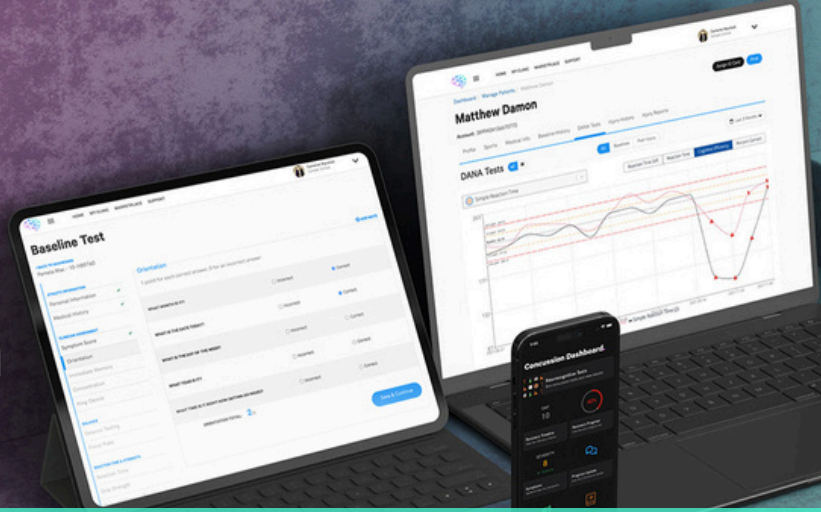

Concussion Tracker App

Anyone can download our free app and self-initiate baseline testing. The results show up in your online dashboard.

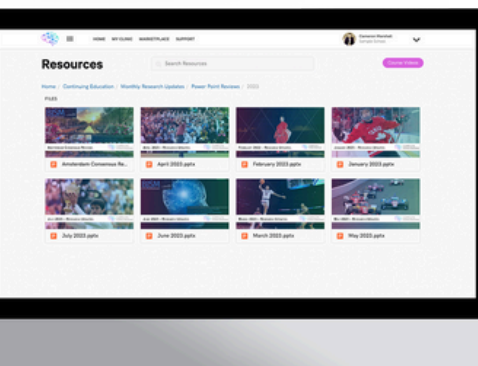

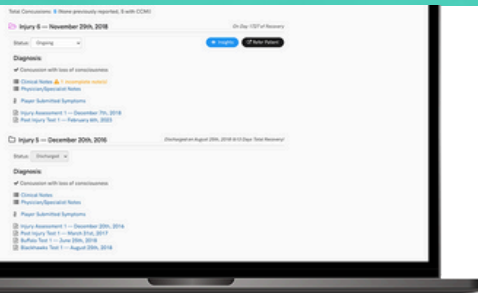

Your online dashboard.

View, analyze, compare, and validate across devices

Complete Concussions provides a HIPAA, GDPR, and Health Canada-compliant EMR system specifically designed for concussion management. It provides clinicians and on-site medical staff with the tools they need in order to administer baseline concussion tests, manage injuries effectively, and ensure seamless communication throughout the performance support team.

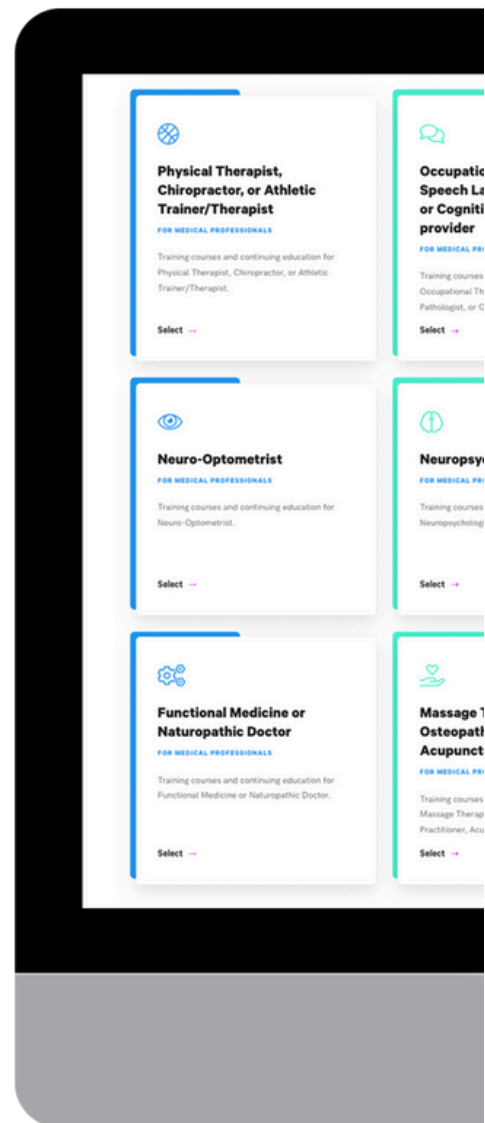

- ✓ Have a full overview of individuals' profiles - all in one place
- ✓ Access to the online dashboard with all baseline and post-injury test results
- ✓ Includes clinical notes (SOAP) and concussion-specific clinical and rehabilitation tests (Vestibular and Oculomotor, Buffalo Treadmill Test, Orthostatic Vital Signs, Chicago Blackhawks Test, Mental Wellbeing Screening, Symptom Tracking and more)
- ✓ Real-time tracking of ongoing injuries, including return-to-learn and return-to-play stage communication with all appropriate stakeholders
- ✓ Clinical insights dashboard leveraging large clinical datasets and Artificial Intelligence to provide you with clinical support and treatment recommendations
- ✓ Connected with the largest, global, multi-disciplinary network of concussion clinics allowing for integrated clinical care
- ✓ Full Resource portal with assessment and treatment videos, monthly research summaries and webinars, essential papers and more
